

SILKPEEL® DERMALINFUSION®

ULTRA-HYDRATING PRO-INFUSION SERUM

Hydrating ingredients are only as beneficial as they are penetrable. This hyper-hydrating serum is formulated with AcquaCell™, a natural watermelon and apple extract complex that is so powerful, just a single application offers significant hydration to visibly reduce fine lines. Butylene Glycol is an essential penetration enhancer that boosts ingredient permeation and optimizes softening and moisturization. Enhanced hydration equals increased anti-aging benefits including barrier protection, and reduced fine lines.

ADDRESSES

- Dehydrated and dry skin
- Lack of volume
- Dull, lackluster skin

BENEFITS

- Improves overall skin hydration
- Barrier protection
- Reduces appearance of fine lines and wrinkles
- Plumps skin

KEY INGREDIENTS

Sodium Hyaluronate

- Absorbs more water than low molecular weight hyaluronic acid. More hydrating to skin.

AcquaCell™ Technology

- Reduces the appearance of fine lines
- Increases natural moisturizing factor
- Natural watermelon and apple extract complex

Butylene Glycol

- Penetration enhancer

Allantoin

- Soothing
- Aids in exfoliation
- Moisturizing
- Skin protectant

SILKPEEL® DERMALINFUSION®

TWO SERUMS ARE BETTER THAN ONE

Dermalinfusion enables the use of two Pro-Infusion Serums during one treatment to brighten and clear, hydrate and rejuvenate and much more.

ULTRA-HYDRATING PRO-INFUSION SERUM

Delivers critical hydration enhanced by a permeation agent for greater anti-aging benefits including a dramatic reduction in visible fine lines.

VITAMIN C PRO-INFUSION SERUM

Purposefully formulated with a stable Vitamin C derivative for numerous brightening and anti-aging benefits—without instigating irritation.

SKIN BRIGHTENING PRO-INFUSION SERUM

Contains the patented Lumixyl peptide, developed by Dermatology Researchers at Stanford University, to safely and effectively inhibit the source of surface dark spots and discoloration.

PORE CLARIFYING PRO-INFUSION SERUM

Facilitates skin clearing and targets surface oil production to address non-inflammatory and inflammatory acne.

IDEAL FOR CLIENTS WITH

- Dehydrated and Dry skin
- Fine Lines and Wrinkles
- Mature skin
- Sun Damage
- Fine and Dry Lines
- Mature skin
- Hyperpigmentation
- Uneven skin tone and texture
- Discoloration
- Non-inflammatory, Inflammatory Acne
- Acne Scarring
- Blackheads and Congested Pores
